

English

We will be studying the Hound of the Baskervilles in preparation for writing a mystery story set on Dartmoor. We will also read a short novel as a class and use this as a stimulus for our writing.

Science

Using our learning gained from our Aquarium visit we will further develop our understanding on interdependence, adaptation and evolution. We will also be looking at the classification of living things.

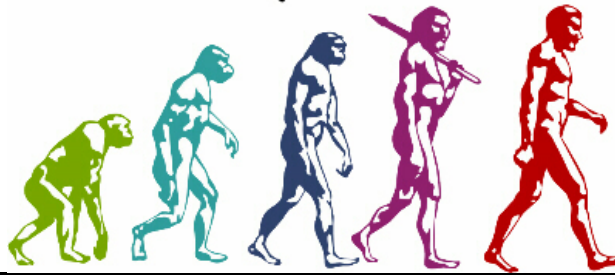

Mathematics

Children will further develop their understanding of place value, decimals and written methods for the four operations.

Geography

Using Dartmoor as a basis for our geography study, we will be using maps to apply our knowledge of compasses, grid references and symbols, as well as learning how to use ordnance survey maps.

The Theory Of Evolution

Key facts to be learnt at home

- To locate Devon and Dartmoor National Park on a map.
 - Know that Dartmoor covers 375sq miles.
 - Learn 5 Ordnance Survey map symbols.
- Be able to classify 6 animals as vertebrates or invertebrates.

Computing

The children will be learning how to stay safe when using technology.

Art

We will create sketches and water colour paintings based on textures and scenes on Dartmoor. As well as studying fossils closely.

Music

We will be exploring rhythm and melody through singing and movement Focus will be on beat, syncopation and harmony.

PE

In gymnastics children will be developing control, strength and balance. In outdoor PE pupils will further their knowledge of rules and tactics in invasion games.

Stone Farm Assembly - Friday 6th October

WOW Day

Trip to Stone Farm
Tuesday 12th September to
Friday 15th

PHSE

We will be learning about fixed and growth mindsets and understanding how our abilities can be developed through dedication and hard work.
