

R.E.

We will be exploring religious stories with a focus on the Easter story and looking at the importance of festivals to.

PE

Netball with a focus on the different throws along with the rules and an emphasis on positive sportsmanship.

Computing

We will be looking at coding programmes and debugging programmes using the Beebots (floor robots).

Mathematics

We will be using Peri the snail to calculate the perimeter of shapes. We will be working on interpreting and presenting data through the use of bar charts, pictograms and tables.

We will also be looking at telling the time on analogue and digital clocks. Learning to tell the time is much easier 1.1 at home so any practise you can get at home will be much appreciated!

Geography

We will learn how to use OS maps and identify key symbols to help them read maps accurately.

We will learn about position and direction (the 8 Compass points and grid references)

We will also be looking at counties and cities of the United Kingdom and their famous physical characteristics in comparison to regions in South America.

"It's like America... but South!"

Disney's Up

Children's questions to be answered through the topic

What is a county?

How do you know where North is?

What do different symbols mean on a map?

How do I use a map?

How do I use a compass?

Art

We will be looking at the Mexican festival Dia De Muertos (day of the dead festival). We will be creating self-portraits that reflect their culture. We will also be looking at the meaning and importance behind the festival.

Our **WOW DAY** will be Monday 4th March. We will be looking at the Mexican festival Dia De Muertos. We will be watching Disney's 'Coco' and creating art work from the Mexican culture. The film is a PG so if you're not happy with your child watching with us please let us know.

English

We will be watching the video Oktapodi and creating our own descriptive settings of Greece. We will be creating a range of non-fiction texts around the Mexican festival Dia De Muertos.

Travel Teddy

Throughout this term we will be sending home a travelling teddy with one child per night. We would like the children to take a picture with the teddy somewhere in the local area. We will then be displaying these pictures in the classroom and marking the locations on a map.
