

Music

Children will be learning about music from around the world and exploring different melodies and rhythms from different cultures,

PE

This term, the children will continue to develop their hand-eye coordination and control of the ball through tennis.

Mathematics

We will continue looking at fractions and learn about decimals and percentages and the link between the three, as well as applying this knowledge to word problems.

R.E

Children will be studying a book called 'The Ramadan Moon' to support their learning about why Muslims celebrate Eid.

Geography

We will learn about the continents. We will locate the world's countries and specifically focus on Europe and their capital cities. We will investigate the similarities and differences between the UK and Europe focusing on France.

French

We will be developing our French vocabulary for ordering food and drinks as if we were visiting France.

English

We will continue writing a range of texts, working on our sentence structures including the grammatical features as set out in the curriculum.

Explore Europe!

WOW Day

A day dedicated to immersing the children in a range of European cultures. The children will have the opportunity to taste food from different countries in Europe.

Children's Questions:

What famous landmarks are in Europe?
Which country makes the fastest car in Europe?
Do they have the same number of children in their schools?
How many countries are in Europe?

Key Facts to Learn

- Locate European countries and key facts about them.
- Locate and know the continents on a map.
- Use maps and atlases to locate countries

Computing

The children will be creating pictures and learning how to use different effects to edit using tools such as copy, paste and crop.
