

## English

We will be writing about sun safety and understanding at a deeper level the damage light can do to our bodies. We will also be developing our non-fiction writing skills by recording and explaining results from investigations.

## Science

This term we will be focusing on 'Light'. The children will understand that dark is the absence of light and develop an understanding of how shadows are formed. We will investigate how light moves and can be reflected from different surfaces.

## Mathematics

The children will be revisiting the maths they have covered so far this year to embed their skills and apply their knowledge in different contexts. We will also be focusing on capacity and learning some roman numerals by looking at sun dials.

## RE

We will be looking at the Festival of Light- Diwali celebrated by different religious groups from around the world.

## Year 3 - Light up your life! (Can I get a watt, watt!)

### Children's questions:

What is light?

Can we live without light?

How does light move?

What materials reflect light the best?

Can I get a watt watt!

## Art

We will be developing our sketching skills and capturing the contrast between light and dark.

## PE

Swimming lessons will continue every Monday next term (apart from the two Bank holidays obviously). Mrs Davies will be teaching PE on Tuesdays and focusing on good Sportsmanship and helping each other as a team.

## French

This term we will be learning the days of the week and months of the year. We will be reciting and performing the poem 'Bonjour Madame Lundi'.

## WOW Day

On Wednesday 1<sup>st</sup> May we will be having a light WOW day. We would like the children to come into school wearing dark clothing and if they have any lights please bring them in (ie reflective clothing, torches, light up key rings, items that glow in the dark etc)
