

## English

The children will be finishing their non-chronological reports linked to our mountain topic in term 4. After this, they will be studying a science fiction text 'Last Mission' and writing their own Science Fiction stories.

## Mathematics

The children will be learning about averages and data handling as well as revising all of the topics we have covered in maths so far in preparation for our tests in May.

## Music & Drama

The children will be learning songs for solo and group performances in preparation for the KS2 production. Towards the end of term, children will be auditioning for roles in this.

## PE

The children will develop their understanding of health and fitness through cross-country running. We have also invited a rugby coach to come in for a day and teach the children the skills they would need to play this sport.

# WE ARE AMAZING

*I hope you believe in yourself as much as I believe in you.*

## Art

The children will be applying their maths skills of circles to art work inspired by the French artist Robert Delaunay.

## PHSE

The children will be creating their own islands which will develop their geographical, problem-solving and creative thinking skills, help them make decisions and choices, and discuss important issues such as British Values. But most importantly allow them to let their imagination run wild!

## WOW Day

Thursday 23<sup>rd</sup> May

Children are invited to share and celebrate an achievement they are proud of, bringing in anything that will help support them in doing this.

## Mindfulness

We will be supporting the children in dealing with the worries of Key Stage Tests through mindfulness and calming activities.
