

Mathematics

The children will start the year by securing place value and number facts by counting, ordering and partitioning numbers. We will then move onto calculating by adding and subtracting numbers with ten sticks and ones cubes.

PE

On Mondays, the children will be learning the importance of staying fit and healthy. They will be working with the swift sports teams to learn and develop a range of agility balance and coordination skills.

PHSE

The children will be thinking about how to understand themselves and others better. We will have a special 'Inside Out' week where we explore emotions and get the children communicating.

WOW Days

Introduction to topic -

Children are invited to come to school dressed in the appropriate clothes/kit of any sport of their choice. They will be active for the day observing the impact exercise has on their bodies as they move!

We will be making fruit kebabs and exploring the benefits of eating 5 fruit and veg a day.

English

Firstly, we will be recapping and embedding skills that should have been secure in Year 1. We will be using these skills to write sentences that describe different settings and characters. We will also introduce our new book for the term 'James and the Giant Peach'. In Year 2, we also introduce cursive, joined writing and model this daily with the children.

Me, Me, Me!

Children's Questions

How do our brains work and make us do things?
How much exercise should we do?
What do animals and people need to grow?
When do we grow?

Key facts to know

I can name five ways to stay fit and healthy.
I can say three reasons why it is good to be me.
I can name the five senses and their uses.
I can say three ways we can care for others.

Computing

The children will be exploring the vital importance of E safety: knowing safe sites to visit, starting to be aware of digital footprints and Cyber Bullying. In addition, we will be teaching them the basics of key word searches and finding information.

RE

On Mondays, Mrs Davis will be exploring how we care for others and the world with the children.

Cross curricular links

- We will be measuring our heart rates before and after exercise to see the impact it has on our bodies.
- We will be making posters explaining how to stay fit and healthy after learning about it in our PE lessons.

Science

The children will be learning to name and locate parts of the human body including those related to senses. They will be describing the importance of exercise, balanced diet and hygiene and starting to explore their investigation skills around this area. In addition to this, we will also be describing the basic needs of animal survival and the main changes that occur as young animals, including humans as they grow into adults.
