

Science

We will be learning about the Earth, Sun and Moon and how these influence our calendar. We'll also be exploring our solar system. We will conduct some experiments to investigate the relation between the Sun, Earth, night and day.

ART

We are going to be developing our skills with painting and discuss our work to be able to make improvements. We will be looking at the work of Chris Ofili and how he layers his work to recreate it.

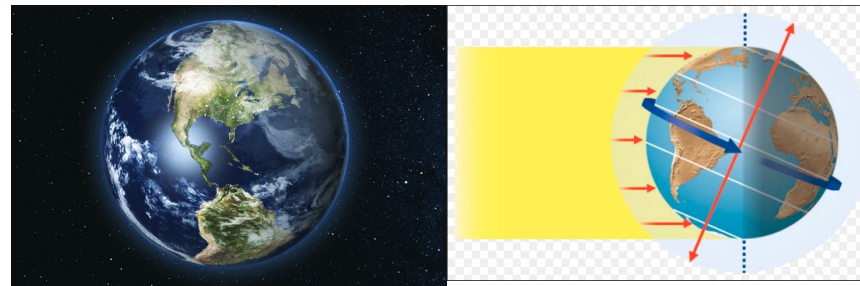

English

We will be using the book 'Skellig' by David Almond as a stimulus for our writing. We will be looking at varying our sentence structure through embedded clauses and moving the subordinating clause in a sentence.

Mathematics

We will be covering Roman numerals, addition and subtraction problems, measures and area, geometry including reflection and translation and recapping multiplication and division.

The Earth and Beyond!

Computing

We will be learning to program and how to change sound and images using computers and software.

Music

We will be looking at the Adele song 'Make You Feel My Love'. We will listen carefully and learn the sign version.

PE

The children will be developing their dance skills by working in small groups and performing to the class.

RE

We will be asking 'What would Jesus do?' (Can we live by the value of Jesus in the 21st century?)

WOW Day

Friday 22nd January 2021

Children will be dressing up as astronauts or aliens. We will be completing activities all to do with space and rockets!

French

We will be learning how to say and order 'les planètes' in French. The children will be describing the planets using adjectives in compound sentences.
