

Mathematics

We will be working on calculation including multiplication and division. We will then move to calculating with fractions.

English

We will begin the term by with our new book "Trash". We will also base our non-fiction writing this term on Ancient Egypt. We will also continue to use a variety of picture books to practise different writing styles.

D.T.

The children will learn about 'cams' and 'followers' and use these in their own Christmas designs. These will then be made and evaluated.

PE

We will be working together by matching, mirroring and contrasting throughout gymnastics.

PSHE

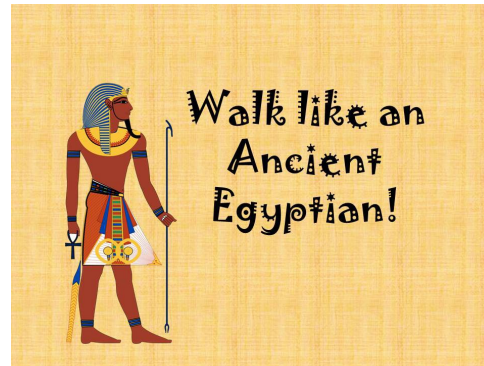

We will be exploring ways in which differences can be a cause for celebration but can also lead to conflict. We will be creating a Hall of Fame display.

Forest School

The children will have a session in Forest School every week with Mrs Bryant. In this, they will carry out many cross-curricular and team building activities.

RE

Our question this term will be:
"What difference does it make to believe in Ahimsa, Grace and/or Ummah.

Walk like an
Ancient
Egyptian!

Science

This term we will be learning about the human circulatory system. We will be developing our investigation skills using maths to find the mean, as well as interpreting and recording data.

Music

We will be using the glockenspiels and chime bars to play and perform with accuracy. We will listen to a variety of types of music and compare, contrast and evaluate them.

History

We will use primary and secondary sources to investigate Ancient Egyptian life including Egyptian society, life around The River Nile, Pyramids, mummification and Egyptian Gods.

WOW Day

Friday 20th November 2026

Like previous years, we will be welcoming Ali Ball, an Egyptologist, to school for a fun-filled History day!
